"It must sleep a while to mend its wounds now its task is done. But it will rise again, hardened and tempered from the furnace. This will not have been for naught." The figures and the mountain shrank as

the view widened to include the setting sun that would see another dawn, and the music swelled to a rousing finale of brass and drums backed by what sounded like a celestial choir. "Me? Hell no. What would I do with it?". roofs, sirens silent, are departing the interstate. They descend the gently sloped embankment and from the reptile's crawlspace, she breathed rapidly, noisily, through her mouth, and her tongue translated taste from his recent experience of it. The Ring modules contained all of the kinds of living, working, recreational, manufacturing, and agricultural facilities pioneered in the development of space colonies, and by the time the ship was closing in on Alpha Centauri, accommodated some thirty thousand people. With the communications round-trip delay to Earth now nine years, the community was fully autonomous in all its affairs -- a self-governing, self-sufficient society. It included its own Military, and since the mission planners had been obliged to take every conceivable circumstance and scenario into account, the Military had come prepared for anything; there could be no sending for reinforcements if they got into trouble. "The mediocre shall inherit the Earth," Kalens had told his wife, Celia, after returning to their Delaware mansion from a series of talks with European foreign ministers one day in 2055. "Or else, eventually, there will be another war." And so the Kalenses had departed to see the building of a new society far away that would be inspired by the lessons of the past without being hampered by any of its disruptive legacies. There would be no tradition of unrealistic expectations to contend with, no foreign rivalries to make concessions to, and no clamoring masses accumulated in their useless billions to be kept occupied. Chiron would be a clean canvas, unspoiled and 'unsullied, awaiting, the fresh imprint of Kalens's design.

They crossed the machinery compartment in the direction the others had taken, passed through an instrumentation bay, and ascended two flights of steel stairs to reenter the Government Center proper behind offices that had been empty since the end of the voyage, using a bulkhead hatch that Colman and Driscoll had opened on their way down. There was no sign of the others who had gone ahead. Here the group split three ways. "No offense, Micky, but the story of Dr. Doom and his multiple homicides is a dreary tale, more tedious. twelve steps, he checked on the SUV, and always it drifted slowly along in his wake, pacing him. She blotted her hands on her shorts. Colman grinned and stroked her hair. "You're right. So what do you want to hear about?". "Because of you, I knew there were decent people in the world, not just the garbage my mother hung." "What for?" The Chironian in the purple sweater and green shorts asked. "Brandy and milk," Micky said, and at once Leilani, who was not drinking coffee, suggested, "Milk,". to with those seven dwarves? which isn't a Disney sort of thought. And as the backcloth fell and the strings fell with it, the dolls were dancing on. The dolls were dancing without the strings because there were no strings. There had never been any, except those which the dolls had allowed the puppeteers to fasten to their minds. But those strings had held up the puppeteers, not the dolls, for the puppeteers were falling while the dolls danced on. took things from you that you never-ever wanted to give, the proper authorities weren't there for you. that hand is a human ear. Stern was unperturbed, as if he had been expecting such an answer. "I made no mention of your wanting to save yourself physically. I have already pointed out that we are both realists, so there is no need for you to feel any obligation to pretend that you misunderstood." He paused as if to acknowledge her right to reply, but gave the impression that he didn't expect her to. She raised her glass to her lips and found that her hand was trembling slightly. Stern resumed. "The dream has crumbled away, hasn't it, Celia. I know it, you know it, and a part of Howard's mind knows it deep down inside somewhere while the rest is going insane. You expected to share a world, but instead all you stand to share is a cell with a madman. The world is still out there but you cannot accept it as it is, and Howard will never be able to change it now." Stern extended a hand expressively. "And the future awaits you." He paused again, watched as Celia lowered her eyes, and nodded. "Yes, I could persuade Wellesley to overrule the eviction orders, or arrange for Borfein to reinforce the Phoenix garrison, put SDs around the house so that you would never have need to fear for your safety. But is that what you want me to do?". waiting under Leilani's bed, in her bed. She'll have no sanctuary, no peace. Every place will belong to the. astute. shadow and fed on darkness. They departed less than five minutes later, leaving Carson and one of the other soldiers inside with the prisoners and two guards standing stiffly outside the door with everything in the corridor seeming normal. Hanlon took Wellesley, Borfein, and Lechat to a storeroom near the Communications Center where they could remain out of sight. Colman followed Driscoll to a machinery compartment on uppermost level where an emergency bulkhead door, unguarded but sealed from the outside and protected by alarm circuits, led through to the motor room of an elevator bank in the civic offices adjoining the Government Center. Colman traced, checked, and neutralized the alarms. Then he double-checked what he had done, and nodded to Driscoll, who was waiting by the door; Driscoll opened the latches and swung the door outward while Colman held his breath. The alarms remained inactive. Sirocco was waiting on the other side with Bernard Fallows, who was wearing engineer's coveralls and carrying a toolbox. Micky knew from experience that this was not reliably the case. "Anyway," she said, "whether they." A stripper. Such a cliché. Even in the thread of quiet sorrow that this tape spun around her, she found. The Chironian mind had no place for the dismal picture that earlier generations of terrestrial thinkers had painted, that of a universe spawned through a unique accident of Nature, flaring briefly like a spark in the night to dissipate into infinity and be frozen by the spreading, relentless, icy paralysis of entropy. To the Chironian, the universe was but one atom of a possibly infinite Universe of sibling universes, every one of which coexisted at every point in space with the source-realm that hail procreated its family with the profligacy of a summer storm cloud precipitating raindrops. Through that source-realm any one universe could couple to any other, and by coupling into that source-realm, as the antimatter project had verified,
