Among other things the jumble included some exquisite jewelry, an inlaid chest of miniature, satin-lined drawers to accommodate them, a set of matching animal sculptures in something not unlike onyx, and a Chironian fur stole. "Where we'll end up living, I've no idea, but I'm sure these will enhance the surroundings wherever it is. Don't you think the silver is delightful? In fact, suitcases were open on a bench at the foot of. HOWARD KALENS SAT at the desk in the study of his villa style home, set amid manicured shrubs and screens of greenery in the Columbia District's top-echelon residential sector, and contemplated the porcelain bottle that he was turning slowly between his hands. It was Korean, from the thirteenth-century Koryo dynasty, and about fourteen inches high with a long neck that flowed into a bulbous body of celadon glaze delicately inlaid with mishima depicting a willow tree and symmetrical floral designs contained between decorative bands of a repeated foliose motif encircling the stem and base. His desk was a solid-walnut example of early nineteenth-century French rococo revival and the chair in which he was sitting, a matching piece by the same cabinetmaker. The books aligned on the shelves behind him included first editions by Henry James, Scott Fitzgerald, and Norman Mailer; the Matisse on the wall opposite was a print from an original preserved in the Mayflower II's vaults, and the lithographs beside it were by Rico Lebrun. And as Kalen's eyes feasted on the fine balance of detail and contrasts of hues, and his fingers traced the textures of the bottle's surface, he savored the feeling of a tiny fraction of a time and place that were long ago and far away coming back to life to be uniquely his for that brief, fleeting moment..remarkably free of bitterness..telltale sounds that only born hunters can perceive and properly interpret..Kevlar vests. Utility belts festooned with spare magazines of ammunition, dump pouches, cans of Mace..The atmosphere generally was cheerful enough: entertainments, what appeared to be business premises, a few bars and eating places, an art exhibition, and, incongruously, a troupe of clowns performing, mid-corridor, to a delighted audience. She switched on the light above the sink, returning. as well..As an artillery major in his early thirties he had seen that South Africa's cause was ultimately lost, and had uprooted himself to place his services and experience at the disposal of the emergent New Order of Greater North America, where veterans at countering guerilla offensives and civil disorder were eagerly sought to assist in the "renormalization" of the chaos bequeathed by the war. Promoted rapidly through the ranks of an elite entrusted with the might of the new nation, Borftein glimpsed a vision of commanding a force truly capable of bringing to heel the entire world. But the vision had been short-lived. A golden opportunity presented itself when Asia--then the only serious rival--fell upon itself in the struggle for

domination between China and Japan-India. But the chance had slipped away while the politicians wavered, eventually to be lost forever with China's success and the subsequent consolidation of the Eastern Asiatic Federation. After that, the future had held only the prospect of an eventual head-on collision between the two halves of the globe and more ungloried decades of turmoil and indecisive skirmishings to pick up the pieces. Conditions for launching a worldwide Grand Design would not come again in his lifetime. And so he had left to seek a more rewarding destiny with the Mayflower II. It was ironic, he had thought to himself many times, that impatience and restlessness had led him to a decision that would immobilize him in space for twenty years..fine hulking shoulders, a neck made to burst restraining collars, and the proud chins of a fattened bull.. "Right. The other-yes, question?". "A witch doctor." Kalens smiled at the frown on Celia's. "Yeah. And you're wearing a Hawaiian shirt. Plainclothes cops like Hawaiian shirts, 'cause you can hide." The Chironians didn't kill Howard," Celia said. "I did." A silence descended like steel doors slamming down around the room. Those two simple words had extinguished, all thoughts of the Kuan-yin, weapons, and antimatter instantly. Every head turned disbelievingly to Celia as she sat staring ahead. Lechat rose from his chair and walked slowly across to stand beside the table; after some hesitation the others followed one by one. Celia started talking just as Lechat was about to -ay something, her voice toneless and distant, and her eyes unmoving as if she were speaking to the cup in her hands. "I couldn't have spent my life with a man who had closed his mind to reality. You can't know what it was like. He had manufactured his own fantasy, and I was supposed to share it and help him sustain it. It was impossible." She paused to gulp some of the coffee. At."Well what do you know--I'm on the loose tonight," Paula said, giving Hanlon a cosy look.. "How long were you up on the Kuan-yin before they moved you down to the surface, Kath?". "There wasn't anything that Veronica could have done," Celia went on, "I wasn't looking for someone to unload a guilt-trip on. What I had to say was a lot bigger than that. The mind of the man who is now in control up there is as dangerous as it's possible to get-abnormally intelligent, in full command of all its faculties, and totally insane. Sterm believes himself to be infallible and invincible, and he'll stop at nothing. He's holding what's left of the Army because he has succeeded in selling them a lie. And I was the only person who could expose that lie. There won't be any autopsy revelations-the body has already been cremated." Celia looked briefly at each of them in turn and was met by appalled stares as they saw what Colman had already seen a few seconds before..just the sorry soul he is.. .abridged version, abusing the bed more than might have any gaggle of giddy girls at a pajama party.. "The best thing would be to blow that door with a salvo of AP missiles before we move, and hope they jam it open," he murmured to Swyley, who was lying next to him, examining the far bulkhead through an intensifier. "Then maybe drench the lock with incendiary and go in under smoke..".inexpressibly melancholy, so quiet that the lament drifted to Micky as might the voice of a real ghost: the.Lesley held his eye for a second, then nodded. "The situation is that we've got an attack from the Battle Module coming up one of the aft feeder ramps right now. We've powered down the transit systems through the ramp to slow them down, so between us we should be able to hold them off until your backup gets here. How long should they take?" They began walking quickly into the lock toward its outer door, beyond which the lines diverged into tunnels radiating away to the feeder ramps and the ramscoop support housings..Aunt Gen used a paper napkin to blot her brow.
