The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships. He was only a child, and the wizards of that household can't have been wise men, for they used little wisdom or gentleness with him. Maybe they were afraid of him. They bound his hands and gagged his mouth to keep him from making spells. They locked him in a cellar room, a room of stone, until they thought him tamed. Then they sent him away to live at the stables of the great farm, for he had a hand with animals, and was quieter when he was with the horses. But he quarreled with a stable boy, and turned the poor lad into a lump of dung. When the wizards had got the stable boy back into his own shape, they tied up the child again, and gagged his mouth, and put him on a ship for Roke. He would do well to learn. As he came down the last slope of the mountain,

he had seen houses here and there out in the marshlands, a village not far away. He had thought he was on the way to the village, but had taken a wrong turning somewhere. Tall reeds rose up close beside the paths, so that if a light shone anywhere he could not see it. Water chuckled softly somewhere near his feet. He had used up his shoes walking round Andanden on the cruel roads of black lava. The soles were worn right through, and his feet ached with the icy damp of the marsh paths..Azver went quickly to where Irian lay beside the stream, and the others followed him. She roused up and got to her feet, looking dull and dazed. They were standing around her, a kind of guard, when the group of thirty or more men came past the little house and approached them. They were mostly older students; there were five or six wizard's staffs among the crowd, and the Master Windkey led them. His thin, keen old face looked strained and weary, but he greeted the four mages courteously by their titles..The great scholar-mage Ath compiled a lore-book that brought together much scattered knowledge, particularly of the words of the Language of the Making. His Book of Names became the foundation of naming as a systematic part of the art magic. Ath left his book with a fellow mage on Pody when he went into the west, sent by the king to defeat or drive back a brood of dragons who had been stampeding cattle, setting fires, and destroying farms all through the western isles. Somewhere west of Ensmer, Ath confronted the great dragon Orm. Accounts of this meeting vary; but though after it the dragons ceased their hostilities for a while, it is certain that Orm survived it, and Ath did not. His book, lost for centuries, is now in the Isolate Tower on Roke..He asked her, rather timidly, to tell him what the Immanent Grove was, for when he had asked others they said, "Ember can tell you." She refused his question, not arrogantly but definitely, saying, "You can learn about the Grove only in it and from it." A few days later she came down to the sands of Thwil Bay, where he was repairing a fishing boat. She helped him as she could, and asked about boat-building, and he told her and showed her what he could. It was a peaceful afternoon, but after it she went off in her abrupt way. He felt some awe of her; she was incalculable. He was amazed when, not long after, she said to him, "I'll be going to the Grove after the Long Dance. Come if you like." Huge figures in cones of floodlights; pouring from them was ruby light, honey light, as art magic used for right ends..It looked very old. It had been rebuilt and rebuilt again, but not for a long time. Nor had anyone.Hemlock nodded. "That is quite understandable, among children. And quite impossible now. Do you understand that?" "No," Diamond said..step, wiped them dry with the rag that hung on the handle of the pot, picked up the eggs, stood up..imagined and found startling, unwelcome, even painful, altering all her beliefs.. "Will you come with me?" the Patterner said to Irian..an approaching green circle. I thanked them and stepped off the walkway, probably at the wrong..It is said that Segoy first wrote the True Runes in fire on the wind, so that they are coeval with the Language of the Making. But this may not be so, since the dragons do not use them, and if they recognise them, do not admit it..everything that had happened to me in the past several hours.
