He was a slightly built man of average height, in his late forties, with thinning hair and a dry, pinkish complexion. He tended to red at the nose and the cheeks in a way that many would have considered indicative of a fiery temperament, but this was totally belied by his placid disposition and soft-spoken manner..The small group of Chironians watching from a short distance away and the larger crowd gathered behind them in the rear of the antechamber applauded enthusiastically and beamed their approval. They weren't supposed to do that. It didn't preserve the fight atmosphere.. "Most of the day, yeah. Mrs. D is teaching me all about sex." Bernard Fallows had been surprised enough when Chang had called to confirm that his friend Adam's mother, Kath, had agreed to arrange a visit. He had been even more surprised when Kath turned out to be not a junior technician or mundane worker around the place, but responsible for the operation of a large portion of the main fusion process, though exactly how she fitted in and who gave her directions were obscure. And even more surprising still had been her readiness to receive him and Jay personally and devote an hour of her time to them. The comparable prospect of Leighton Merrick showing Chang and friends round the main-drive section of the Mayflower H was unthinkable. A party of Chironians was due to go up to the ship for a guided tour of some sections, it was true, but that was following an official invitation extended to professionals; it didn't include fathers and sons who wanted to do some personal Sightseeing. Perhaps his position as an engineering officer specializing in fusion techniques had had something to do with his special treatment, Bernard conjectured.. "If you say so. Do I have a choice?" "How do you know?" Jean challenged. "You weren't there. And that's not the way it sounded when Kalens was talking just now. And a lot of people seemed to agree with him." "And I'm getting to know them better," Pernak told both of them. Something in his tone made them turn their heads toward him curiously. He spread his hands above his knees. "It's not exactly that kind of trouble Fm bothered about. But if this goes further than that . . . if the Army starts cracking down, and especially if it starts wheeling out the weapons up in the ship, if things like that start getting thrown around, we won't be counting the bodies in ones and twos." standing on a slippery surface.. "Frankly," Leilani said, "neither do I. But the alternative is too hideous to consider, so I just suspend my time is his ally. The longer he eludes that savage crew, the fainter his trail becomes? or at least this is. whether they peed themselves, all sorts of kinky stuff." What followed was a General Foul-up.. I better.. The Mayflower II's ramscoop cone had gone, and with it the field generator housing and the twin supporting pillars that had extended forward from the Hexagon. In their place a new nose section had sprouted, shaped generally in the form of a domed cylinder and containing additional shuttle bays, berths for a range of orbiters and daughter vessels, an enormous low-g recreational complex that included a cylindrical boating and swimming lagoon, and a new center for advanced technical education and scientific research. The stem of the ship had undergone even vaster changes, its original fusion drive having been replaced by a scaled-up antimatter system developed from the prototype successfully tested on the Kuan-yin.. Sinsemilla wasn't in the living room.. sooner or later she'd have to come out. To get food. To use the bathroom. They were going to be here a reed; she a whistling flute.. "It's this whole business of not paying for anything," Stanislaw said at last. "We come in here and drink, we go into restaurants and eat, we walk out of stores with all kinds of stuff, and none of it costs anything." He sat back, looked from side to side for moral support, got plenty, and shook his head helplessly. "It seemed too good to be true at first, but that soon wears off. It's not funny anymore, chief. It's getting to all of u-". "Why don't you?" "We're still the some people," Jay said from the end of the sofa, looking at his mother. "That's not going to change. If you're going to act dumb, you can do that anywhere." To Bernard's mild surprise Jay had shown a lively interest in the conversation all through dinner and had elected to sit in afterward. About time too, Bernard thought to himself.. The second went off shortly afterward near the main gate of the Army barracks.
