"How's something so delicious come from a fat, smelly, dirty, snorting old pig?". After a little silence Otter said, "Thanks." And he looked up at Hound, one brief, questioning, judging glance. This morning, Damascus had left the house early, before Vanadium came downstairs, which was perfect for Junior's purposes. While the maniac cop was finishing his shave and shower, Junior crept upstairs to check his room. He discovered the revolver in the second of the three places that he expected it to be, did his work, and returned the weapon to the nightstand drawer in precisely the position that he had found it. Narrowly avoiding an encounter with Vanadium in the hall, he retreated to the ground floor. After some fussing over the most effective placement, he left the quarter and the luggage—just as Vanadium, the human stump, clumped down the stairs. Junior experienced an unexpected delay when the detective spent half an hour making phone calls from the study, but then Vanadium went into the kitchen, allowing him to slip out of the house and complete his work. As a young man, he had performed first in nightclubs catering to Negroes and in theaters like Harlem's Apollo. During World War II, he'd been part of a USO troupe entertaining soldiers throughout the Pacific, later in North Africa, and following D-Day, in Europe. With that thought, he made himself laugh. Unfortunately, his laughter was high-pitched and shaky, and it scared the hell out of him. This was only a fraction of Paul's collection. Thousands of additional issues filled rooms at home. Paul withdrew the pistol from the drawer. The weapon didn't feel as good to him as guns always felt in the hands of pulp heroes. Granted that he was only three going on four, nevertheless Barty had never met anyone with as much cheerful imagination as Angel. He intended to marry her in, oh, maybe twenty years. "But before you leave St. Mary's," the physician said, "I'd like a few mutes of your time. It's very important to me. Personally." When Junior walked the cracked-linoleum corridor and descended the six flights of stairs to the street, he discovered that a thin drizzle was falling. The afternoon grew darker even as he turned his face to the sky, and the cold, dripping city, which swaddled Bartholomew somewhere in its concrete folds, appeared not to be a beacon of culture and sophistication anymore, but a forbidding and dangerous empire, as it had never seemed to him before. They came to the house in Boatwright Street after dark. They kicked the door in, and Hound, standing among the armed and armored men, said, "Him. Let the others be." And to Otter he said, "Don't move," in a low, amicable voice. He sensed great power in the young man, enough that he was a little afraid of him. But Otter's distress was too great and his training too slight for him to think of using magic to free himself or stop the men's brutality. He flung himself at them and fought them like an animal till they knocked him on the head. They broke Otter's father's jaw and beat his aunt and mother senseless to teach them not to bring up crafty men. Then they carried Otter away. This back blow wasn't just sport, either, but more like Vietnam as he sometimes told women that he remembered it. As though pitched by a grenade blast, Junior went from his feet to the floor with chin-rapping impact, teeth guillotining together so hard that he would have severed his tongue if it had been between them. He no longer had any reason to follow an exercise regimen. For twenty-three years, he'd needed to maintain good health in order to meet his responsibilities, but all the responsibilities that mattered to him had been lifted from his shoulders. Eventually she discovered within herself all the light that she needed to find her way through the crucial hours immediately ahead. At last she knew what she must do, but she was not certain that she possessed the fortitude to do it. As he stepped out of the street, Don't Walk shortened to Walk, and when he checked for pursuit, he found it. Here came Vanadium, who would have been shivering in want of a topcoat if his flesh had been real. As they moved around the base of the oak from one vantage point to another, people stopped by to reassure Agnes, although never with a word, as though to speak would be to jinx the climb. Maria placed a hand on her arm, squeezed gently. Celestina briefly massaged the nape of her neck. Edom gave her a quick hug. Grace slipped an arm around her waist for a moment. Wally with a smile and a thumbs-up sign. Tom Vanadium, thumb and forefinger in a confident OK. Lookin' good. Hang in there. Signs and gestures, maybe because they didn't want her to hear the quivers and catches in their voices. The rich aromas on the air would have thwarted the will of the most devout monks on a fast of penitence. They were in the eastern hills, a mile from Jolene and Bill Klefton's place, where ten days ago, Edom had delivered blueberry pie along with the grisly details of the Tokyo-Yokohama quake of 1923. "If I ever have trots, you'll know." And then in the Cheese voice: "CAN WE LISTEN TO THE BOOK TALK IN YOUR ROOM?". When he noticed that twilight had come and gone, he realized also that he'd walked through Bright Beach, along Pacific Coast Highway, and south into the neighboring town. Perhaps ten miles. In the face of his kindness, however, she couldn't refuse his request. She nodded. During the rest of that first year, he walked to Palm Springs and back, a round trip of more than two hundred miles, and north to Santa Barbara. Then Agnes said, "Well, it's clear to me that you won't be able to talk out your life in just one year. Should be a two-year grant." At the stream Serrenen, where it runs within the north wall of the city, the midwife gave Otter his true name, by which he is remembered in islands far from Havnor. "My little girl," she said, and belatedly she realized that this might not be a policeman, after all, but someone trying to determine if she and Angel were alone in the apartment. The night was in flight, however, and he had a lot to do before it swooped straight into morning. "Do you know him?" Edom asked, gazing longingly now at the open door, from which Jacob had turned away. "Obadiah Sepharad?" .of drool. Her eyes rolled, wild with fear, and seemed not to be focused on anything. Crouching beside the boy as he rubbed a brighter shine onto the granite, Agnes said, "Barty, honey, why are you At first all had gone well. Agnes, Maria, and Edom were rightly amazed. A thrill of wonder and big smiles all around the table. They were enthralled by the astoundingly favorable fall of cards, a breathtaking mathematical improbability. He slipped behind the door and raised the pewter candlestick over his head. Weighing perhaps five pounds, the object made a formidable bludgeon, almost as good as a hammer. When she tried to speak to him, she could no more easily raise her voice than she could extend a hand to him. Now Junior threw back the covers and sprang out of bed. In double briefs, he restlessly roamed the hotel room. She didn't hide the diagnosis from the family, but she delayed telling them the prognosis, which was bleak. Already, her bones were tender, packed full of mutated immature white cells that hindered the production of normal white cells, red cells, and platelets. Eventually, when he had gone through the entire directory, if he'd had no success, he would phone each red-checked listing and ask for Bartholomew. A few hundred calls, no doubt. Some would involve long-distance charges, but he could afford the toll. Dusk had arrived, strangling the day, and the throttled sky hung low, as blue-black as bruises. The streetlights had come on. Gouts of red light from pulsing emergency beacons alchemized the rain from teardrops into showers of blood. Rising from the chair and approaching the bed, the detective kept turning the quarter without hesitation. "She was a very sweet girl. Very romantic. Her diary's full of rhapsodies about married life,

about you. She thought you were the finest man she'd ever known and the perfect husband." A speeding truck passed, stirring the fog, and the white broth churned past the car windows, a disorienting swirl. "Well, we have earthquakes here," Jolene said, "but back east they have all those hurricanes." The little hands, so weak now but someday strong: Would they eventually be capable of savagery, as were the father's hands? Misbegotten offspring. This seed of a demonic man whom Phimie herself had called sick and evil. However innocent-looking now, what pain might she eventually in-- on others? What outrages might she commit in years to come? Although Celestina searched intently, she could not glimpse the father's evil in the child. Regrettably, at 2:00 A.M., February 28, waking alone in Tammy's bed, Junior sought her out and found her snacking in the kitchen. Forsaking a fork in favor of her fingers, she was eating a. And speak the tongues of man and drake. Having booked the suite for three nights, Tom expected that he would spend far fewer late hours in his bed than sitting watch in the shared living room. Glorifying in the cloudless day and the warmer than usual weather, he drove seventy miles north, through phalanxes of evergreens that marched down the steep hills to the scenic coast. All the way, he monitored the traffic in his rearview mirror. No one followed him. the grass, silent because he is barely conscious, too badly beaten to protest or to plead for mercy, but also. As he rose from his chair, Barty began to reacquaint himself with the feeling of all the ways things are, began to bend his mind around the loops and rolls and tucks of reality that he had perceived on the roller coaster that day, and by the time he had followed Angel and Tom to the bottom of the stairs and into the oak-shaded yard behind the house, the day faded into view for him. Losen, a sea-pirate who called himself King of the Inmost Sea, was then the chief warlord in the city and all the east and south of Havnor. Exacting tribute from that rich domain, he spent it to increase his soldiery and the fleets he sent out to take slaves and plunder from other lands. As Otters uncle said, he kept the shipwrights busy. They were grateful to have work in a time when men seeking work found only beggary, and rats ran in the courts of Maharion. They did an honest job, Otter's father said, and what the work was used for was none of their concern. As he raced into the future, the past caught up with him in the form of intestinal spasms, and by the time that he had driven only three miles, whimpering like a sick dog, he made an emergency stop at a service station to use the rest room. Part of him knew this sound was his heartbeat, not the footfalls of an otherworldly pursuer, but that part of him wasn't dominant at the moment. He moved faster, not exactly running, but hurrying like a man late for an appointment. Junior had heard of this invention, but until now he'd never seen one. He supposed that an obsessive like Vanadium might go to any lengths, including this exotic technology, to avoid missing an important call. The instant he flipped the coin, he opened both hands-palms up, fingers spread-with a distracting flourish. He looked up into the eyes of the stocky man with the birthmark. They were gray eyes, hard as nail heads, but clear and surprisingly beautiful in that otherwise unfortunate face. He possessed vast files on tragic fires, and most of them were committed to memory. In Vienna's magnificent Ring Theater, December 8, a blaze claimed 850 lives. On May 25, 1887, 200 dead at the Opera Comique, Paris. November 28, 1942, in the Coconut Grove nightclub in Boston-when Jacob was only fourteen years old and already. These past ten days had been the most difficult of her life, harder even than those following Joey's death. Back then, although she had lost a husband and a gentle lover and her best friend all at once, she'd had her undiminished faith, as well as her newborn son and all the promise of his future. She still had her precious boy, even though his future was to some extent blighted, and her faith remained with her, too, though diminished and offering less solace than before. From the far end of the table, Agnes said, "For starters, Tom, we all want to hear about the rhinoceros and the other you." Nevertheless, being cautious even as he seized the day--or the night, in this case-he parked a short distance from his destination, on a parallel street. He walked the last three blocks. He warily surveyed those around him as he walked, and looked over his shoulder from time to time. On one of these backward glances, he was unnerved but not surprised to see Vanadium's specter. Paul was a dear man, different from Joey in appearance but so like him at heart. She shocked him by insisting they go at once to his house, to his bedroom. Red-faced as no pulp hero ever had been, Paul stammered out that he wasn't expecting intimacy of her so soon, and she assured him that he wasn't going to get it so soon, either. He exploded off Renee with the velocity of high-powered rifle fire. Stunned, disgusted, humiliated, he backed away from the chaise lounge, spluttering, wiping at his mouth, cursing. On that busy night, with Vanadium's corpse in the Studebaker and Victoria's cadaver awaiting a fiery disposal at her house, Junior was too distracted to recognize the pertinence of the message. Now it tormented him from a dark nook in his subconscious. Barty wanted to hug her. He did hug her. He hugged Angel, too. He hugged Tom Vanadium. Continuing to avert his eyes from the battered face and the two tone eyelids, Junior found the keys in an exterior pocket of the sports jacket. The credentials were tucked in an interior pocket: a single-fold leather holder containing the shiny badge and a photo ID. She was sopping, shivering. Water streamed from her soaked hair, down her face, as she wiped at her beaded eyelashes with one dripping hand.
