Celestina, surprised by Lipscomb's arrival, was still mentally numb from Neddy's harangue. "Doctor, I didn't know you were coming." To the foot of the bed slouched the third and final Hackachak: twenty-four-year-old Kaitlin, Naomi's big sister. Kaitlin was the unfortunate sister, having inherited her looks from her father and her personality equally from both parents. A peculiar coppery cast enlivened her brown eyes, and in a certain slant of light, her angry glare could flash as red as blood. As though frightened of the gentle certainty in Celestina's eyes, the doctor turned away from her, and toward the window once more. Only Angel spoke, with nary a catch or quiver, fully confident in her Barty. "Anything he can teach me, I can learn, and anything I can see, he can know. Anything, Aunt Aggie." He had dragged Ichabod halfway across the threshold when he heard someone say, "No." A mere silhouette against the fluorescent glare, Vanadium stepped into the hall. The bright light seemed to enfold him. The detective shimmered and vanished the way that a mirage of a man, on a fiercely hot desert highway, will appear to walk out of this dimension into another, slipping between the tremulous curtains of heat as though they hang between realities. Before they set out for the amusement park, Agnes pulled him aside, held him close, and said, "Listen, kid of mine, I'm not giving up. Don't think I ever would. Let's have fun today. This evening, you and I and Angel will convene a meeting of the North Pole Society of Not Evil Adventurers"-the girl had become the third member years ago" and all truths will be told and secrets known. "Walking was part of a fitness regimen that he took seriously. He would never be called upon to save the world, like the pulp heroes in the tales he enjoyed; however, he had solemn responsibilities he was determined to meet, and to do so, he must maintain good health. Leaving Frieda unconscious and reeking, a condition in which her bralessness had no power to arouse him, Junior left. With a nimbleness and an alacrity that a lemur would have admired, the girl ascended to the first crotch. Rearview mirror was not hung with one of those tacky decorative deodorizers. The seats, regularly treated with leather soap, were softer and more supple than they had been when the car had shipped out of. Jacob feared what men could do with clubs, knives, guns, bombs, with their bare hands, but he was most preoccupied by the unintended death that humanity brought upon itself with its devices, machines, and structures meant to improve the quality of life. Suddenly and seriously crept out, Junior wanted to get away from this nut case. Yet he was frozen by morbid fascination. Celestina was amazed by her own courage in combat and by the steady calm that served her so well now. She wasn't shaken by the thought of what might have happened to her, and to her daughter, because her mind and her heart were with Wally-and because, having been watered with hope all of her life, she had a deep reservoir on which to draw in a time of drought. The possibility that he'd left a clear fingerprint on the watch crystal had to be judged remote. And the band had been too textured to take a print useful to the police..or the barber. Never was he afraid to fall asleep, and having fallen asleep, he appeared to have only pleasant dreams. While always Agnes held fast to hope, she knew that easy hope was usually false hope, and she didn't allow herself to speculate, even briefly, that his problem had resolved itself. Other symptoms-halos and rainbows-had disappeared for a time, only to return. One worrisome problem: Neddy might be found in the container before it had been hauled away, instead of at the landfill that preferably would serve as his next-to-last resting place. If his body was discovered here, it must be at a distance from any trash bin used by the gallery. The less likely the cops were to connect Neddy to Greenbaum's art-sausage factory, the less likely they also were to connect the murder to Junior. "You'll catch pneumonia," she warned, reaching across the boy to flip the passenger-side vent toward him. At 3:22 in the morning, December 13, following a busy day of conducting ghost research, seeking Bartholomews in a telephone book, and working on his needlepoint, Junior awakened to singing. A single voice. No instrumental accompaniment. A woman. His enjoyment of the art was diminished by these associations, and as Junior turned away from Industrial Woman, his attention was suddenly captured by the quarters. Three lay on the floor at her gear wheel-and-meat-cleaver feet. They had not been here earlier. For more than twenty-three years, he'd given his big toe little consideration, had taken it for granted, had treated it with shameful neglect. Now this lower digit seemed precious, a comparatively small fixture of flesh, but as important to his image of himself as his nose or either of his eyes. The bow business had started a few months ago. Angel said she wanted to look pretty in her sleep, in case she met a handsome prince in her dreams. A sedan had come to a stop in the graveled driveway, over to the right of the house, almost out of view. As Junior watched, the headlights were doused. The engine shut off. The driver's door opened. A man got out of the car, a shadowy figure in the fearsome yellow moonlight. The dinner guest. Having risen higher in the sky during the past couple hours, the gold-coin moon reminded itself as silver, and in the black lake, its reflection rolled across the knuckles of the quiet wavelets. So. Two monks they were: one in the service of everlasting light, the other in the service of eternal darkness. Just as Celestina snapped shut the latches on the suitcase and turned to the door, a nurse's aide entered, pushing a cart loaded with towels and bed linens. Footsteps in the hall drew their attention to the open door, where the surgeon appeared in his loose cotton greens. Edom had noticed them earlier. Now he saw they were in worse condition than he'd thought. Enlarged knuckles, fingers not entirely at natural angles to one another. Perhaps Obadiah had rheumatoid arthritis, like Bill Klefton, though a less crippling case. There would be lots of aftermath with three at once, especially if he took them out with point-blank head shots, but Junior was pumped full of reliable antiemetics, antiarrhythmics, and antihistamines, so he felt adequately protected from his traitorous sensitive side. In fact, he wanted to see a significant quantity of aftermath this time, because it would be proof positive that the boy was dead and that all this torment had come at last to an end. The moon shimmered, and the stars blurred-but only briefly, for her devotion to this boy was a fiery furnace that tempered the steel of her spine and brought a drying heat to her eyes. Without Franklin Chan's full approval but with his complete understanding, Agnes took Barty home. On Monday, they would return to Hoag Hospital, where Barty would receive surgery on Tuesday. At first light, a nurse arrived to perform preliminary surgical prep on Barty. She pulled the boy's hair

back and captured it under a tight fitting cap. With cream and a safety razor, she shaved off his eyebrows. "Where did you hear that expression," she demanded, though she couldn't conceal her amusement. Frowning, Angel studied the tasty strip of meat pinched between her fingers, reevaluating everything she thought she knew about the source of bacon. Though Celestina was still holding Angel, Wally kissed her, and again it was lovely, though shorter than before, and Angel said, "That's a messy kiss." nonetheless. The rapist's curse. Healthy, but healthy at the expense of Phimie. The musician had no talent for deception. His hopping-hen eyes pecked at the nearest painting, at other guests, down at the floor, everywhere but directly at Junior, and a nerve twitched in his left cheek. "Well, I'm very good, you know, at faces, they stick with me, I don't know why. Goodness knows, my memory is otherwise shot." Gradually, she perceived that Lipscomb was more troubled than he should have been, considering that his patient had died through no fault of his own. "Get this through your head, you shit-for-brains. I lost a daughter, a precious daughter, my Naomi, the light of my life." In fact, although weak and achy, Junior felt mentally refreshed and wonderfully alert. Stopping at the door without opening it, Vanadium turned to stare at Junior, but said nothing. "But let's pretend it's me, okay? So here I am, stepping off the curb without looking both ways." Shortly after four o'clock, here was Neddy, already spiffed for work in black tuxedo, pleated white shirt, and black bow tie, with a red bud rose as a boutonniere, standing just inside the open door to Celestina White's studio apartment, holding forth in tedious detail as to the reasons why she was in flagrant breach of her lease and obligated to move by the end of the month. The issue was Angel, lone baby in an otherwise childless building: her crying (though she rarely cried), her noisy play (though Angel wasn't yet strong enough to shake a rattle), and the potential she represented for damage to the premises (though she was not yet able to get out of a bassinet on her own, let alone go at the plaster with a ball-peen hammer). On the other hand, killing a stranger like Bartholomew Prosser relieved stress better than sex did. Senseless murder was as relaxing to him as meditation without seed, and probably less dangerous. Daylight had retreated from the windows. Winter night, wound in scarfs of fog, like a leprous mendicant, rattled out a breath as though begging their attention beyond the glass. A knife already lay on the counter nearby. He used it to slice four pats of butter, yellow and creamy, each half an inch thick, off the end of the stick. The Selective Service physician quickly declared Junior to be maimed and unfit. Quietly but with passion, Junior pleaded for a chance to prove his value to the armed forces, but the examiner was unmoved by patriotism, interested only in keeping the cattle line of other potential draftees moving past him at a steady pace. After supper in a roadside diner, Paul returned to his room and studied a tattered map of the western United States, the latest of several he'd worn out over the years. Depending on the weather and the steepness of the terrain, he might be able to reach Spruce Hills, Oregon, in ten days. Then came the Year of the Tiger, 1974. Gasoline shortages, panic buying, mile-long lines at service stations. Patty Hearst kidnapped. Nixon gone in disgrace. Hank Aaron toppled Babe Ruth's longstanding home-run record, and the inflation rate topped fifteen percent, and the legendary Muhammad Ali defeated George Foreman to regain his world-heavyweight title. Maria gathered up the four jacks and tore them in thirds. She put the twelve pieces in the breast pocket of her blouse. "I buy to you new cards, but no more ever can you be having these." And as he grew, the boy seemed content with his own company and that of his mother and his uncles. Yet Agnes worried that no children his age lived in their neighborhood. She thought he would be happier if he had a playmate or two. IN HIS FORD VAN filled with needlepoint and Sklent and Zedd, Junior Cain-Pinchbeck to the world-left the Bay Area by a back door. He took State Highway 24 to Walnut Creek, which might or might not have walnuts, but which offered a mountain and a state park named for the devil: Mount Diablo. State Highway 4 to Antioch brought him to a crossing of the river delta west of Bethel Island. Bethel, for those who had taken good advanced courses in vocabulary improvement, meant "sacred place." were a favorite pair when he was puttering around the house on weekends. "Oh," he said, "that dog." From the phone, Barty proceeded directly to the refrigerator. He opened the door, got a can of orange soda, and returned without hesitation to his chair at the table. Currently, Jacob was far removed from the embalming chamber and intended never to set foot there, alive. With Walter Panglo as his guide, he toured the casket selection in the funeral-planning room. Their story would be that Cain's gun had jammed just as Tom had entered Barty's bedroom. Too cowardly for hand-to-hand combat, the Shamefaced Slayer had fled through the open window. He was loose once more in an unsuspecting world. Although he considered tearing up the letter and throwing it away he knew that his perceptions were clouded by grief and that what he'd written might seem fine if he reviewed it in a less dark state of mind. He returned the letter to the envelope and put it in the drawer of his nightstand. A s'ance was what it appeared to be at first. Eight people were gathered around the dining-room table, which stood utterly bare. No food, no drinks, no centerpiece. They all exhibited that shiny-faced look of people nervously awaiting the revelations of a spirit medium: part trepidation, part soaring hope. Scamp had fabulous legs, and her bralessness left no doubts about the lusciousness and authenticity of her chest, but after an hour of conversation about something or other, before suggesting that they leave together, Junior maneuvered her into a reasonably private corner and discreetly put a hand up her skirt, just to confirm that his gender suspicions were correct. guarantee against self-incrimination, a slap in the face of justice, a violation of the rights of man. He slapped her hands, knocking the sharpener and the pencil out of her grasp. They clattered against the window, fell onto the window-seat cushions. able to reconcile these opposed forces, she was all but paralyzed by indecision. The paramedic pumped the inflation cuff of the sphygmomanometer, and Junior's blood pressure was most likely high enough to induce a stroke, driven skyward by the thought that Naomi's love had been a lie. With effort, she managed to say, "I'm sorry, sweetie," but her voice was sufficiently distorted by anguish that even to herself, she sounded like a stranger. Out of a sphinx face, Obadiah conjured a smile that lifted the point of his white goatee when he turned his head to look at Edom. "Ah ... so long ago," he murmured, as though speaking to himself. "So long ago ... but I remember now." He winked at Edom. A mutual interest in ballroom dancing had resulted in their introduction when each needed a new partner for a fox-trot and swing competition. Nolly had started taking lessons five years before he had met Kathleen. Junior continued east, weaving through the horde, convinced that he could hear the ghost cop's footsteps distinct from the tramping noise made by the legions of the living, penetrating the grumble and the bleat of traffic. Hollow, the dead man's tread echoed not only in Junior's ears but also through his body, in his bones. "Agnes," said the magician, "you better start meeting with that librarian now to record your own life. If you don't get started for another forty years, by then you'll need a whole decade of talking to get it all down." Agnes was not fully aware of how she was lifted from the car, but she remembered looking back and seeing Joey's body huddled in the tangled shadows of the wreckage, remembered reaching toward him, desperate for the anchorage that he had always given her, and then she was on the gurney and moving. His breath was warm against her throat: "And I want to go back home to see some faces." He pressed his right ear to the door, held his breath, heard nothing, and addressed the top lock first.

Quietly, he slid the thin pick of the lock-release gun into the key channel, under the pin tumblers..She was sopping, shivering. Water streamed from her soaked hair, down her face, as she wiped at her beaded eyelashes with one dripping hand..Something was due to happen in this peculiar, extended, almost casual haunting under which he had suffered for more than two years, since finding the quarter in his cheeseburger. While all around him in the streets, people bustled in good cheer, Junior slouched along in a sour mood, temporarily having forgotten to look for the bright side..The way one does research into nonexistent history is to tell the story and find out what happened. I believe this isn't very different from what historians of the so-called real world do. Even if we are present at some historic event, do we comprehend it-can we even remember it-until we can tell it as a story? And for events in times or places outside our own experience, we have nothing to go on but the stories other people tell us. Past events exist, after all, only in memory, which is a form of imagination. The event is real now, but once it's then, its continuing reality is entirely up to us, dependent on our energy and honesty. If we let it drop from memory, only imagination can restore the least glimmer of it. If we lie about the past, forcing it to tell a story we want it to tell, to mean what we want it to mean, it loses its reality, becomes a fake. To bring the past along with us through time in the hold-alls of myth and history is a heavy undertaking; but as Lao Tzu says, wise people march along with the baggage wagons..Amazed, Agnes gaped at her baby. The throat lump that blocked her speech was part pride, part awe, and part fear, though she didn't at once understand why this wonderful precociousness should frighten her..Even without the dangling cigarette and without the cynical sneer, Nolly had an air of toughness worthy of Sam Spade, largely because the face that nature had given him was a splendid disguise for the sentimental sweetie who lived behind it. With his bull neck, with his strong hands, with his shirt-sleeves rolled up to expose his lovely hairy forearms, he made a properly intimidating impression: as if Humphrey Bogart, Sydney Greenstreet, and Peter Lorre had been put in a blender and then poured into one suit..Parkhurst said, "We've eliminated most other possible causes. You don't have acute myelitis or meningitis. Or anemia of the brain. No concussion. You don't have other symptoms of Meniere's disease. Tomorrow, we'll conduct some tests for possible brain tumor or lesion, but I'm confident that's not the explanation, either..Celestina stared at the small, brown face, opening herself to the anger and hatred with which she had regarded this child in the operating room..Barty came out of the house with the library copy of Podkayne Of Mary, which his mother had promised to read to him later, in the hospital. "Are we all going?" he asked..As long as Junior continued to fake sleep, the cop couldn't be absolutely sure that any deception was taking place..Too far from Spruce Hills to be a popular make-out spot for teenagers, Quarry Lake was a turnoff for young lovers also because it had a reputation as haunted territory. Over five decades, four quarry workers had died in mining accidents. County lore included stories of ghosts roaming the depths of the excavation before it was flooded-and subsequently the shoreline, after the lake was filled..In the morning, at breakfast, from this calmer perspective, he looked back at his tantrum in the middle of the night and wondered if he might be in psychological trouble. He decided not. In November and December, Junior studied arcane texts on the supernatural, went through new women at a pace prodigious even for him, found three Bartholomews, and finished ten needlepoint pillows..Oblivious that she and Barty had become the center of attention, Angel said, "Does he ever get the quarters back?".Thus far, none of these women of mercy was as lovely as Victoria Bressler, the ice-serving nurse who was hot for him. Nevertheless, he kept looking and remained hopeful..As was true of the entire house, the bedroom was immaculate. The wood floor gleamed as though polished by hand. A simple white chenille spread conformed to the bed as smoothly and tautly as the top blanket tucked around a soldier's barracks bunk..Kid's room. Bartholomew's room. Furniture in cheerful primary colors. Pooh posters on the wall..Murmuring on the edge of sleep, Barty spoke to his father in all the places where Joey still lived: "Good-night, Daddy..".At the sight of her photograph, she felt herself flush. She hoped none of the pedestrians passing between her and the gallery would look from the photo to her face and recognize her. What had she been..At those cutting-edge galleries where he attended receptions, no one got in without a printed invitation. And even with the authentic paper in hand, you might still be refused entry if you failed to pass the cool test. The criteria of cool were the same as at the current hottest dance clubs, and in fact the bouncers controlling the gate at the finest avant-garde galleries were those who worked the clubs..The bandaged man stormed up from the ruin of the living room, gauze fluttering around his lips as his hard exhalations seemed to prove that he wasn't a long-dead pharaoh reanimated to punish some heedless archaeologist who had ignored all warnings and violated his tomb. So this wasn't a *Weird Tales* moment..This sight that might inspire celebration among sailors was denied to Barty, who rode in the backseat with Agnes. Neither could he see how the crimson sky studied its painted face in the mirror of the ocean, nor how a burning blush shimmered on the waves, nor how the veil of night slowly returned modesty to the heavens.
