A nurse fussed over him as she helped him into bed, concerned about his paleness and his tremors. She was attentive, efficient, compassionate but she wasn't in the least attractive, and he wished she would.After examining Barty, Dr. Schurr sent them to the hospital for further tests. There they spent the rest of the day, except for an hour break during which they ate lunch in a burger joint.."All right," Agnes said, and as she voiced her acceptance, she was shivered by a sudden fear for which she couldn't at once identify a cause..Junior closed his weary eyes and gratefully submitted as the paramedic wiped his greasy face and his crusted lips with a cool, damp cloth..During the past week, he had ferreted out what he could about the nurse. She was thirty, divorced, without kids, and lived alone..On the morning in August that Agnes came home from Dr. Joshua Nunn's office with the results of tests and with a diagnosis of acute myeloblastic leukemia, she asked that everyone pack up and caravan, not to deliver pies, but to visit an amusement park. She wanted to ride the roller coaster, spin on the Tilt-A-Whirl, and mostly watch the children laugh. She intended to store up the memory of Barty's laughter as he had stored up the sight of her face in advance of the surgery to remove his eyes..Tom didn't attribute supernatural powers to this killer. Enoch Cain was mortal, not all-seeing and all-knowing. Evil and stupidity often go together, however, and arrogance is the offspring of their marriage, as Tom had earlier told Celestina. An arrogant man, not half as smart as he thinks, with no sense of right and wrong, with no capacity for remorse, can sometimes be so breathtakingly reckless that, ironically, his recklessness becomes his greatest strength. Because he is capable of anything, of taking risks that mere madmen wouldn't consider, his adversaries can never predict his actions, and surprise serves him well. If he also possesses animal cunning, a kind of deep intuitional shrewdness, he can react quickly to the negative consequences of his recklessness and can indeed appear to be more than human..Edom would have judged this a perfect day-except for the earthquake weather. He was convinced that the Big One would bring the coastal cities to ruin before twilight..These Spartan arrangements were good enough for Vanadium. He had arrived from Oregon the previous night with three suitcases full of his clothes and personal effects. He expected that his unique combination of detective work and psychological warfare would enable him to entrap Cain in a month, before these accommodations began to feel too austere even for one to whom anything fancier than a monk's cell could seem baroque..This didn't work for Junior. Strangely, when he focused on a mental image of any fruit-apple, peach, banana-his thoughts drifted to sex. He became aroused and had no hope of clearing his mind..For an instant, his attention had been distracted by Vanadium's presentation of his empty hands. Nevertheless, there was no way the cop could have snatched the coin out of the air..Strangely, as sometimes happened in this room, his missing toe itched. There was no point in removing his shoe and sock to scratch the stump, because that would provide no relief. Curiously, the itch was in the phantom toe itself, where it could never be scratched.."You're the one who said your cold's just here. Maybe it stays in the kitchen, hoping it'll get a piece of pie."..Not one day in anyone's life, so her father taught, is an uneventful day, no day without profound meaning, no matter how dull and boring it might seem, no matter whether you are a seamstress or a queen, a shoeshine boy or a movie star, a renowned philosopher or a Downs syndrome child. Because in every day of your life, there are opportunities to perform little kindnesses for others, both by conscious acts of will and unconscious example. Each smallest act of kindness-even just words of hope when they are needed, the remembrance of a birthday, a compliment that engenders a smile-reverberates across great distances and spans of time, affecting lives unknown to the one whose generous spirit was the source of this good echo, because kindness is passed on and grows each time it's passed, until a simple courtesy becomes an act of selfless courage years later and far away. Likewise, each small meanness, each thoughtless expression of hatred, each envious and bitter act, regardless of how petty, can inspire others, and is therefore the seed that ultimately produces evil fruit, poisoning people whom you have never met and never will. All human lives are so profoundly and intricately entwined-those dead, those living, those generations yet to come-that the fate of all is the fate of each, and the hope of humanity rests in every heart and in every pair of hands. Therefore, after every failure, we are obliged to strive again for success, and when faced with the end of one thing, we must build something new and better in the ashes, just as from pain and grief, we must weave hope, for each of us is a thread critical to the strength-to the very survival-of the human tapestry. Every hour in every life contains such often-unrecognized potential to affect the world that the great days for which we, in our dissatisfaction, so often yearn are already with us; all great days and thrilling possibilities are combined always in this momentous day..Furrowing her brow and narrowing her eyes as though prepared to scold him, she slowly lowered her face to his, until their noses were touching, and she whispered, "Because it's more fun if it's secret."..The telephone rang, putting an end to their chat, but Agnes would remember the

substance of it later that year, on the day before Christmas, when Barty took a walk in the rain and changed forever his. Now, on his kitchenette table, two nights after Maria's reading, Jacob finished integrating the four decks as he had done Friday in the dining room of the main house. His work completed, he sat for a while, staring at the stack of cards, hesitant to proceed. Regardless of her other successes or failures as a parent, Agnes intended to make certain that Barty never lacked hope, that meaning and purpose flowed through the boy as constantly as blood. "Maybe it's not where the heart is," Wally corrected himself. "Maybe it's where the buffalo roam." Convinced he was alone and unobserved, Junior leaned into the car and shifted it out of park. He released the hand brake. As Wally followed them inside, Celestina grinned at him. "From the car to the living room, all as neat as a well-practiced ballet. We've got a big headstart on this married thing." When Junior complained of severe thirst, Victoria explained that he was to have nothing by mouth until morning. He would be put on a liquid diet for breakfast and lunch. Soft foods might be allowable by dinnertime tomorrow. Sobbing desperately, he dropped the telephone handset on the secretary, seized the dishtowel. He wrapped the cloth tightly around the shattered stump, applying pressure to diminish the bleeding. Evidently, last evening, prior to keeping a dinner date with Victoria, when the taunting detective had illegally entered Junior's house and placed another quarter on the nightstand, he had seen the directory open on the kitchen table. Deducing the meaning of the red check marks, he inserted this card and closed the book: another small assault in the psychological warfare that he'd been waging. "No, that's not necessary," Junior said, trying to sound casual. "Considering what you told me, I'm sure whoever's bothering me here can't be Vanadium. I mean, him being on the run, with plenty of his own troubles, the last thing he'd do is follow me here just to screw with my head a little." Junior liked women who drank a lot. They were usually amorous or at least unresistant. When she complimented him on being such a good little soldier, abiding his cold with no complaint, he shrugged. Without looking up from the coloring book, he said, "It's just here." Finally he switched on the light, and illuminated Neddy at ease, silent in death as never in life: lying on his back, head turned to the right, swollen tongue lolling obscenely. The shakes returned, became more violent than previously--and then once more passed. "Better hold on tight to her," Wally warned Celestina, braking to a halt at the intersection. "She'll float up and away, then we'll have to call the fire department to get her down." or the barber. Never was he afraid to fall asleep, and having fallen asleep, he appeared to have only pleasant dreams. Through the cacophony of shattering glass, splintering wood, and cracking plaster, Paul heard the hard roar of an engine, the blare of a horn, and suspected what must have happened. Some drunk or reckless driver had crashed at high speed into the parsonage. Eventually he approached the door between the dining room and the kitchen. He paused there, listening. Fear clotted in Junior's veins, and he stood like an impacted embolism in the busy flow of pedestrians, certain that he himself would at any moment succumb to a stroke. The hospital was eerily quiet, except for the occasional squeak of rubber-soled shoes on the vinyl floor of the corridor. "That's correct," Parkhurst said. "Probably one or more small blood vessels ruptured from the extreme violence of the emesis." "Not really. I love you, Mommy." He yawned and dropped into sleep with a quickness that always amazed her. And then everything changed in one stunning moment. Changed profoundly and forever. Eventually, he settled on a mental image of a bowling pin as his "seed." This was a smooth, elegantly shaped object that invited languorous contemplation, but it did not tease his libido. In spite of the thousands of hours that Paul was afoot, he seldom thought about why he walked. He met people along the way who asked, and he had answers for them, but he never knew if any answer might be the truth. The way one does research into nonexistent history is to tell the story and find out what happened. I believe this isn't very different from what historians of the so-called real world do. Even if we are present at some historic event, do we comprehend it--can we even remember it--until we can tell it as a story? And for events in times or places outside our own experience, we have nothing to go on but the stories other people tell us. Past events exist, after all, only in memory, which is a form of imagination. The event is real now, but once it's then, its continuing reality is entirely up to us, dependent on our energy and honesty. If we let it drop from memory, only imagination can restore the least glimmer of it. If we lie about the past, forcing it to tell a story we want it to tell, to mean what we want it to mean, it loses its reality, becomes a fake. To bring the past along with us through time in the hold-alls of myth and history is a heavy undertaking; but as Lao Tzu says, wise people march along with the baggage wagons. He'd wanted to give Celestina more help than she would accept. She continued working nights as a waitress for two years, while she completed classes at the Academy of Art College, and she quit her job only when she began to sell her paintings for enough to equal her wages and gratuities. He didn't allow himself to ponder why Vanadium had come here or what relationship might have existed between the cop and Victoria. All that was for later consideration, after he had dealt with this unholy mess. After wiping her floury hands, Agnes took the book from him and, examining it, could find nothing wrong. She flipped back a few pages, then a few forward, but the lines of type were crisp and clear. "Show me where, honey." There was a valuable lesson to be learned from the encounter with Renee Vivi: Many things in this life are not what they first appear to be. To Junior, however, the lesson was not worth learning if he had to live with the vivid memory of his humiliation. When Junior opened the trunk, he discovered that fishing gear and two wooden carriers full of carpenter's tools left no room for a dead detective. He would be able to make the body fit only if he dismembered it first. And here, now, into the kitchen through a door with a porthole in the center. Into sizzle and clatter, into clouds of fried-onion fumes and the mouthwatering aromas of chicken fat and shoestring potatoes turning golden in deep wells of boiling cooking oil. "There is no king in Earthsea," the young man said, stern and righteous, "In my master's service, then," Hound amended, patient. If either of them suspected that she was lying, it was Edom. He looked puzzled, but he didn't pursue the issue. By dawn, when the intestinal paroxysms finally passed, this bold new man of adventure felt as flat and limp as road kill. He took a long shower, as hot as he could tolerate, until his muscles felt as soft as butter. To have the best chance of becoming a master mechanic, any young apprentice needs a mentor. The art of total card control cannot be learned entirely from books and experimentation. She was not going to be as forthright with Barty as she had insisted that Joshua Nunn be with her, in part because she was too shaken to risk forthrightness. With great deliberation, Joey shifted gears and followed the drive way to the street, where he peered left and then right with the squint-eyed suspicion of a Marine commando scouting dangerous territory. He turned right. Nellie found the strength to rise, but having risen, she was unable to speak. Her mouth shaped words, but her voice deserted her. To the windows, then, drawing all the blinds securely down. And still, irrationally, she felt watched. This was a relaxation technique that had worked often before. He had teamed it from a brilliant book, How to Have a Healthier Life through Autohypnosis. Yet, uncaught, the quarter would have dropped to the floor. Junior would have heard it ring off the tiles. Which he hadn't. After a little silence Otter said, "Thanks." And he looked up at Hound, one brief, questioning, judging glance. "Yeah, but I've been thinking about that. If he feels some kind of responsibility ...

then why did he ever represent Cain in the first place?".If Junior had realized that they were driving only a block and a half, he wouldn't have followed them in the Mercedes. He would have gone the rest of the way on foot. When he pulled to the curb again, a few car lengths behind the Buick, he wondered if he had been spotted.."I'm interested in one of the smaller Griskins," said Junior, managing to appear calm, although his mouth was dry with fear and his mind spun with crazy images of the maniac cop, dead and rotting but nevertheless lurching around San Francisco..IN HOSPITALS, AS in farmhouses, breakfast comes soon after dawn, because both healing and growing are hard work, and long days of labor required to save the human species, which spends as mu& time earning its pain and hunger as it does trying to escape them..Intuition told Tom Vanadium that the removal of the paintings was significant, but he wasn't a talented enough Sherlock to leap immediately to the meaning of their absence..It was then that village sorcery, and above all women's witchery, came into the ill repute that has clung to it since. Witches paid dearly for practicing the arts they thought of as their own. The care of pregnant beasts and women, birthing, teaching the songs and rites, the fertility and order of field and garden, the building and care of the house and its furniture, the mining of ores and metals-these great things had always been in the charge of women. A rich lore of spells and charms to ensure the good outcome of such undertakings was shared among the witches. But when things went wrong at the birth, or in the field, that would be the witches' fault. And things went wrong more often than right, with the wizards warring, using poisons and curses recklessly to gain immediate advantage without thought for what followed after. They brought drought and storm, blights and fires and sicknesses across the land, and the village witch was punished for them. She didn't know why her charm of healing caused the wound to gangrene, why the child she brought into the world was imbecile, why her blessing seemed to burn the seed in the furrows and blight the apple on the tree. But for these ills, somebody had to be to blame: and the witch or sorcerer was there, right there in the village or the town, not off in the warlord's castle or fort, not protected by armed men and spells of defense. Sorcerers and witches were drowned in the poisoned wells, burned in the withered fields, buried alive to make the dead earth rich again..Foreword."No. Charming," she disagreed. "There's a meaning to it. Everything has a meaning, dear." Junior discovered more tears than could have been found in ten thousand onions. His wife and his unborn baby. He had been willing to sacrifice his beloved Naomi, but maybe he would have found the cost too high if he had known that he was also sacrificing his first-conceived child. This was too much. He was bereft..". . . then how come you couldn't walk where your eyes were healthy and leave the tumors there," she remembered..That Olympian purge had, however, made him appear to be both emotionally and physically devastated by the loss of his wife. He couldn't have calculated any stratagem more likely to convince most.The gray pewter appeared to be mottled with a black substance. Perhaps char. As though it had been soiled in a fire.. "That won't do it." Celestina hardly knew Paul, and although he'd saved her mother's life, his offer raised a look of doubt from her..Junior was reminded of a scene in an old movie, something Naomi wanted to watch, a love story set during the Black Plague: a horse drawn cart rolling through the medieval streets of London or Paris, the driver ringing a hand bell and crying, "Bring out your dead, bring out your dead!" If contemporary San Francisco had provided such a convenient service, he wouldn't have had to toss Neddy Gnathic in the Dumpster in the first place.
