Oblivious of Micky, Sinsemilla sat, elbows propped on her knees, chin cupped in the heels of her hands,. Putting down the lemonade, Leilani relented:

"Oh, all right. I'll bite. When were you shot in the head, case one of the congressman's minions coiled in a car outside, waiting to follow the woman, Noah must have always thought. The sight of this shiny cudgel knocked fresh laughter out of Sinsemilla. She clapped her hands, oblivious. Then it switched to a guttural male--"Karl, ze Bavarian butler, maybe?"--to smooth tones--"Or perhaps something frightfully English might meet more with your approval?"--and finally back to its original American. Three obstacles now remained between Kalens and the vision that he had nurtured through the years of presiding over the kind of neofeudal order that would epitomize his ideal social model. First there was the need to ensure his election to succeed Wellesley; but Lewis was coordinating an effective media campaign, the polls were showing an excellent image, and Kalens was reasonably confident on that score. Second was the question of the Chironians. Although he would have preferred Borstein's direct, no nonsense approach, Kalens was forced to concede that after six years of Wellesley's moderation, public opinion aboard the Mayflower II would demand the adoption of a more diplomatic tack at the outset. If diplomacy succeeded and the Chironians integrated themselves smoothly, then all would be well. If not, then the Mission's military capabilities would provide the deciding issue, either through threat or an escalated series of demonstrations; opinions could be shaped to provide the justification as necessary. Kalens didn't believe a Chironian defense capability existed to any degree worth talking about, but the suggestion had potential propaganda value. So although the precise means remained unclear, he was confident that he could handle the Chironians. Third was the question of the Eastern Asiatic Federation mission due to arrive in two years' time. , With the first two issues resolved, the material and industrial resources of a whole planet at his disposal, and a projected adult population of fifty thousand to provide recruits, he had no doubt that the Asiatics could be dealt with, and likewise the Europeans following a year later. And then he would be free to sever Chiron's ties to Earth completely. He hadn't confided that, part of the dream to anyone, not even Celia., "Those methods were appropriate before this phase, change," Pernak answered. "They don't have any place now." They were regular infantry, Lesley could see. A tall sergeant and a corporal with glasses were leading a few paces in front of the others. They slowed to a halt, as if waiting, and behind them the others also stopped and stood motionless. Lesley's jaw tightened as he stared down through the observation port. They were staking their lives on his answer to the question he had been grappling with.. Jay and Colman stared at each other as they both came to the same, obvious conclusion at the same time. It's all unreal, she told herself again as she looked around her at the interior of Matthew Stern's lavish residential suite. Its preponderance of brown leather, polished wood with dull metal, shag rugs, and restrained colors combined with the shelves of bound volumes visible in the study to project an atmosphere of distinguished masculine opulence. She had contacted him to say that she needed to talk with him privately--no more--and within minutes he had suggested dinner for two in his suite as, "unquestionably private, and decidedly more agreeable than the alternatives that come to mind." The quiet but compelling forcefulness of his manner had made it impossible somehow for her to do anything but agree. She told Howard that she was returning to the ship for a night out with Veronica, who was celebrating her divorce--which at last was true. Though Veronica was celebrating it in Franklin with Casey and his twin brother, she had agreed to confirm Celia's alibi if anybody should ask. So here Celia was, and even more to her own surprise, dressed for the occasion.. "Oh, little mouse, what's wrong with me that I let the child go back there?". Despite having worked under him for several years, Fallows had never been able to master the art of feeling at ease in Merrick's presence. Displays of undue familiarity were hardly to be expected between echelon-six and echelon-four personnel, naturally, but even allowing for that, Fallows always found himself in acute discomfort within seconds of entering a room with Merrick in it, especially when nobody else was present. This time he

wouldn't let it happen, he had resolved for the umpteenth time back in the corridor. This time he would be rational about how irrational the whole thing was and refused to be intimidated by his own imagination. Merrick had not singled him out as any special object of his disdain. "So let's get Merrick here and talk to him," Wellesley said. He sat back and placed his hands on the edge of the table. "This would be a good time to break for lunch.
